Sticky, slippery fingers are no match for the Targus® Kids Antimicrobial Case for iPad® (9th, 8th and 7th Gen) 10.2-inch, iPad Air® 10.5-inch, and iPad Pro® (10.5-inch).* With military-grade drop protection for drops up to 4 feet** and an all-over antimicrobial protection, this case is engineered for maximum durability wherever your little one totes their tablet. Precision cutouts give full access to controls, ports, and cameras, so it's easy to enjoy their favorite tunes, check out an app, or join in on their latest virtual class without missing a beat. And no need to worry, mom and dad – this case is made from non-toxic, kid friendly EVA foam material.

For an added benefit, this tablet case features Targus DefenseGuard™ Antimicrobial Protection*, which creates a cleaner surface and works continuously to prevent the growth of microorganisms. Unlike topically applied sprays, Targus DefenseGuard tablet cases are infused with an antimicrobial additive that does not wear off and lasts for the life of the product.

* Antimicrobial product protection is limited to the Targus device itself.

** As tested by an independent third party applying MIL-STD-810G, Method 516.6, Procedure IV.
