<b>Password</b>	R24@SFww

**Overview**

**25 Word Product Description**

Add a CORSAIR RS140 140mm PWM Fan to your cooling setup, offering daisy-chained 4-pin PWM control and strong, concentrated airflow.

**Overview**

**50 Word Product Description**

Add a CORSAIR RS140 140mm PWM Fan to your cooling setup, featuring daisy-chained connectors for streamlined control through a single 4-pin PWM header on your motherboard. Fan speeds up to 1,700 RPM CORSAIR AirGuide technology for optimal cooling. Enjoy quieter, longer-lasting performance with Magnetic Dome bearings and minimal noise with Zero RPM mode.

**Overview**

**100 Word Product Description**

Add a CORSAIR RS140 140mm PWM Fan to your cooling setup – daisy-chained 4-pin PWM connectors let you link to your other RS fans and control them all through just a single 4-pin PWM header on your motherboard. Enjoy fan speeds up to 1,700 RPM, with the static pressure to also serve as radiator fans. CORSAIR AirGuide technology with anti-vortex vanes directs airflow for concentrated, powerful cooling. Magnetic Dome bearings ensure quieter operation and increased longevity, while Zero RPM mode offers silent operation at low loads.

**Features**

- **Streamlined Fan Connections:** Daisy-chain multiple fans together and control them all through just a single 4-pin PWM connector.
- **Precise PWM Speeds:** Set your fan speeds up to 1,700 RPM while providing up to 95.5 CFM airflow to your system.
- **CORSAIR AirGuide Technology:** Anti-vortex vanes direct airflow at your hottest components for concentrated cooling, pushing air in the direction you need when mounted to a radiator or heatsink.
- **High Static Pressure:** RS fans work well as radiator fans with a static pressure of 3.46mm-H2O to push through obstructions.
- **Quiet Operation with Magnetic Dome Bearing:** CORSAIR’s Magnetic Dome bearing minimizes noise and reduces friction for greater longevity.
- **Quiet Operation with Magnetic Dome Bearing:** CORSAIR’s Magnetic Dome bearing is a refinement of the renowned magnetic levitation bearing, minimizing noise and reducing friction for greater longevity.
- **Zero RPM Mode:** Supports Zero RPM PWM signals to completely eliminate fan noise at low loads.

**Tech Specs**

Dimensions (mm):	140mm x 140mm x 25mm
Rated Current - Fan:	0.45A
Speed:	0, 330 - 1700 RPM ±10%
Airflow:	14.6 - 95.5 CFM
Static Pressure:	0.11 - 3.46 mm-H2O
Sound Level:	10 - 36 dBA
Connection cable:	PWM
PWM Control:	0%, 20% - 100%
Bearing Type:	Magnetic Dome
Cable Length:	600mm
Warranty:	5 Years

**Box Contents**

1x RS140 Fan  
 4x Mounting Screws
