This diagram illustrates the exploded view of a cabinet assembly. The components are labeled as follows:

- Tu1**: Top panel (left).
- Tu2**: Top panel (right).
- Se1**: Side panel (left).
- Wa**: Wall panel.
- Rw**: Rear panel.
- Se2**: Side panel (right).
- Bo1**: Bottom panel (left).
- Bo2**: Bottom panel (right).
- So1**: Shelf (left).
- So2**: Shelf (right).

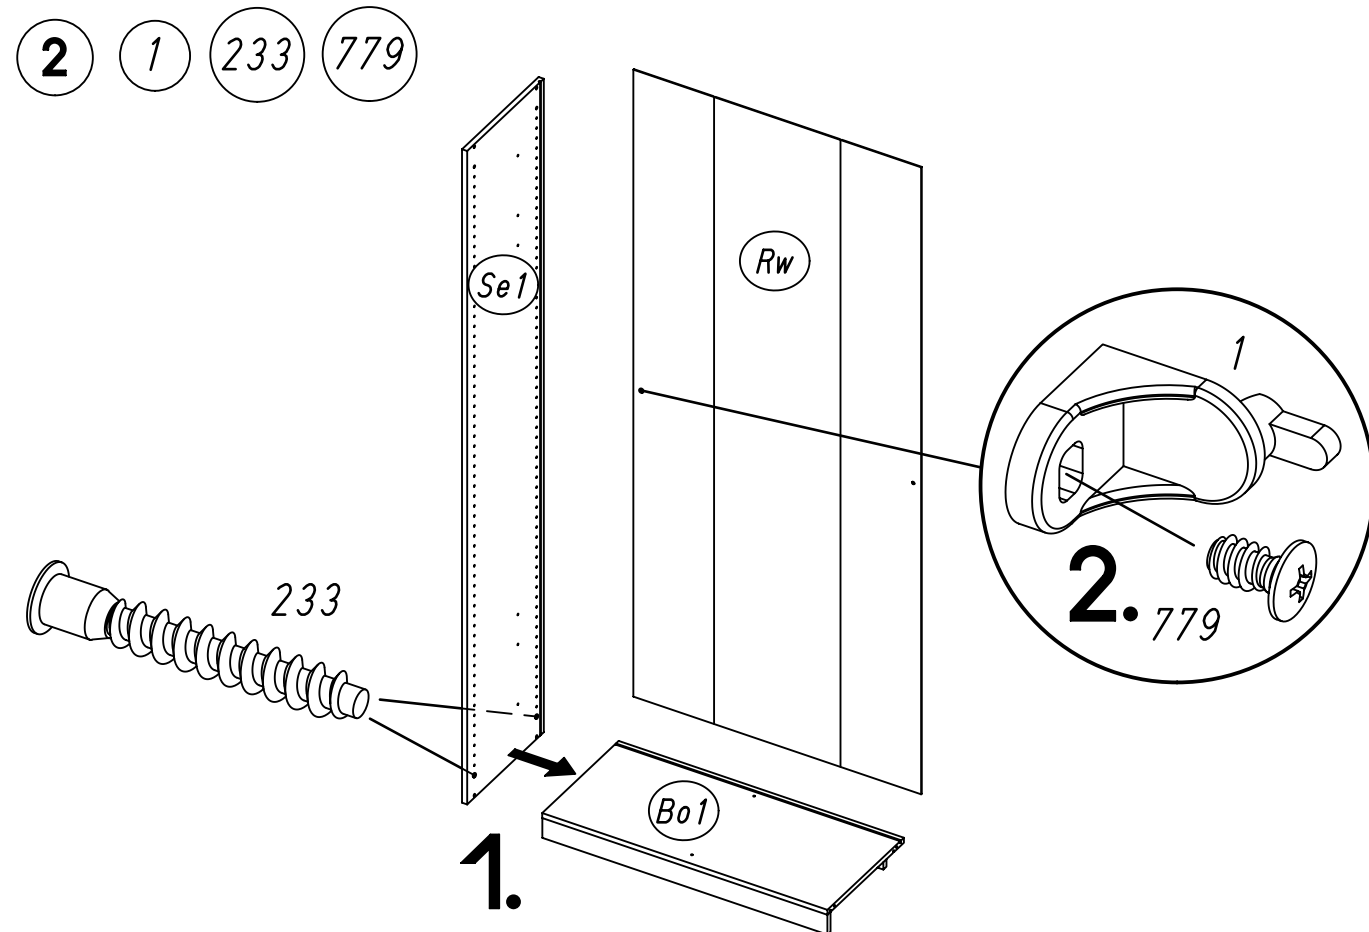

1

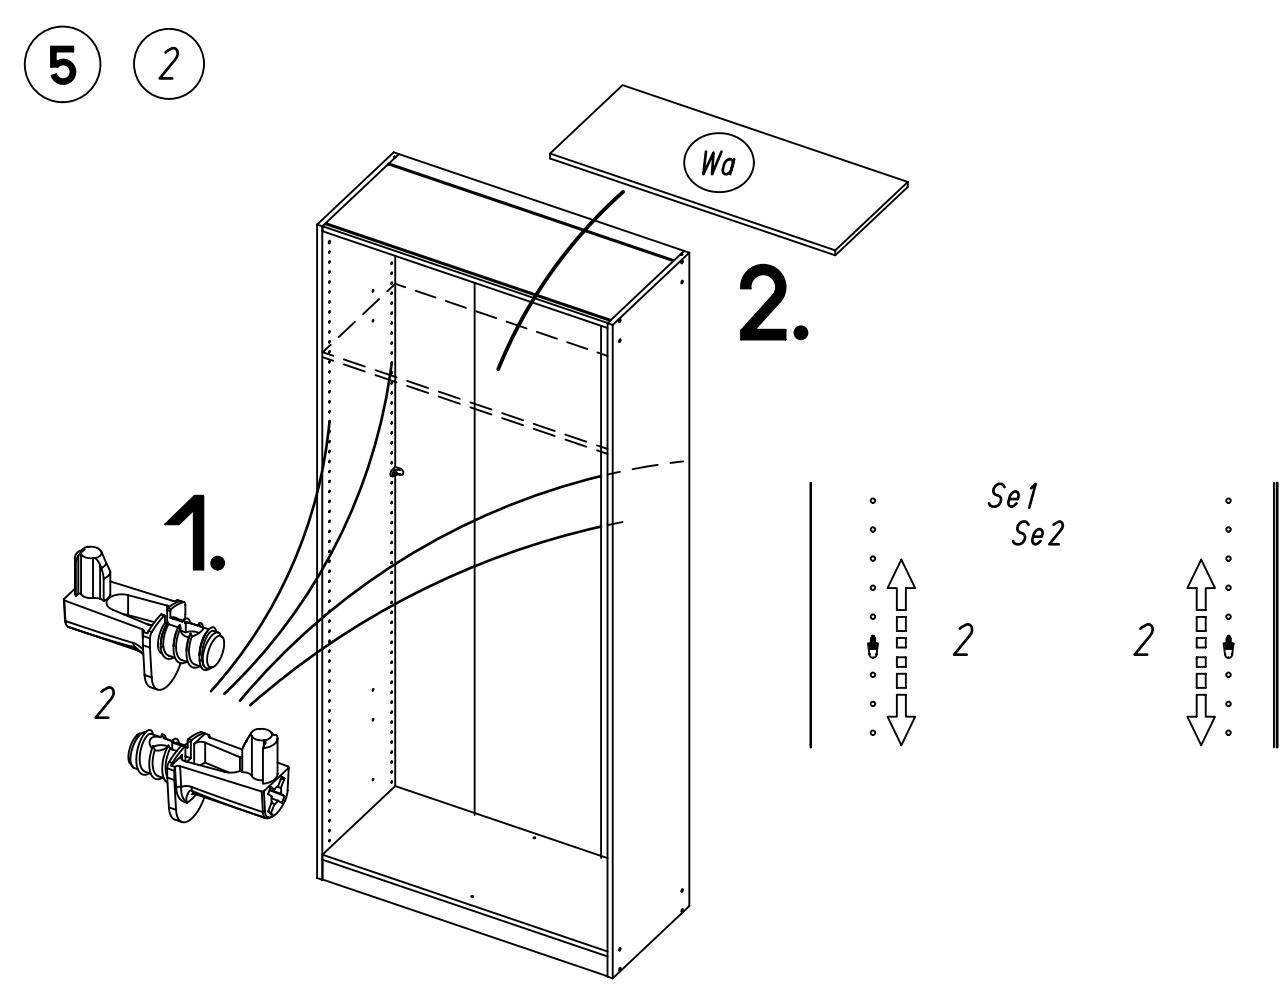

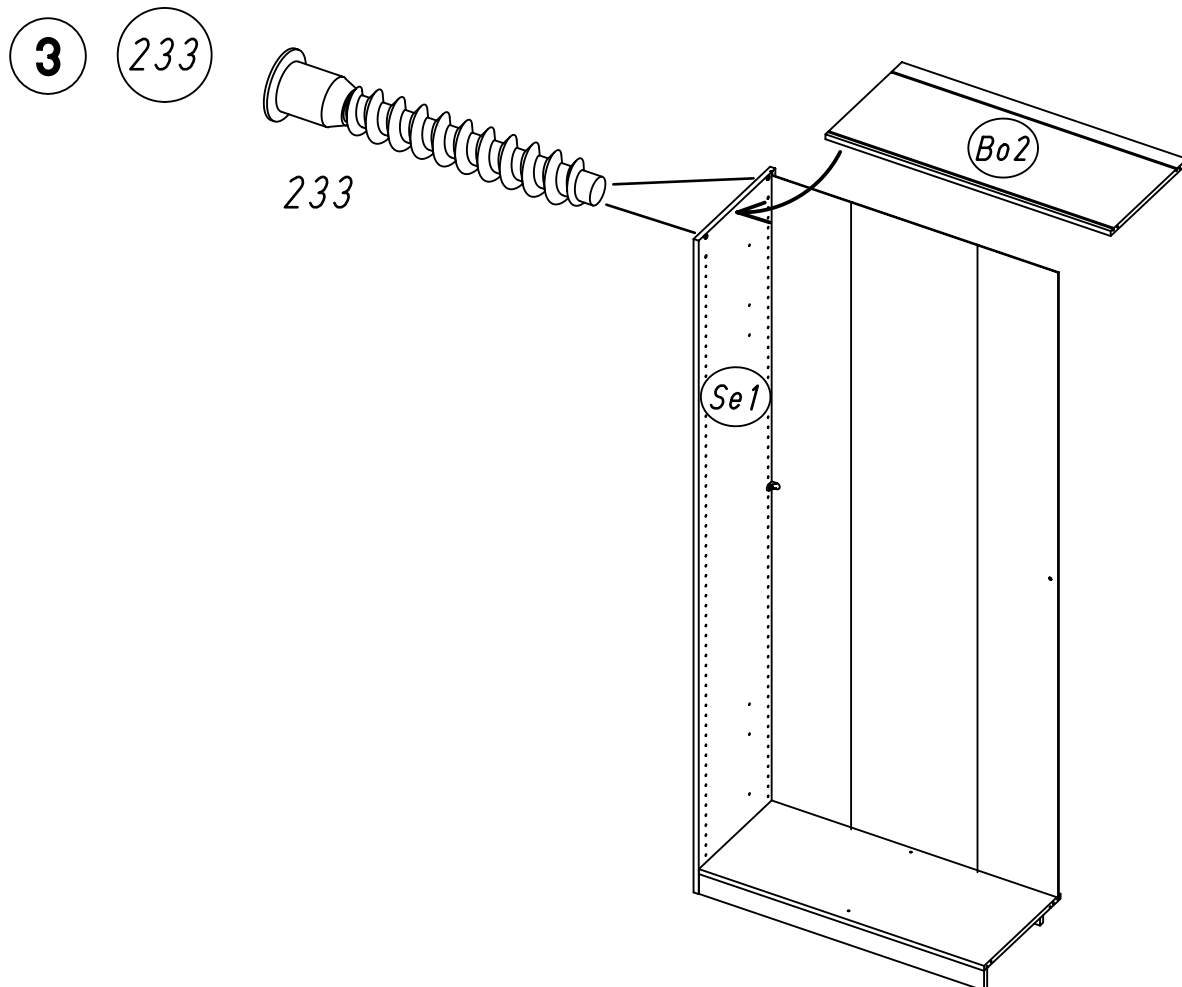

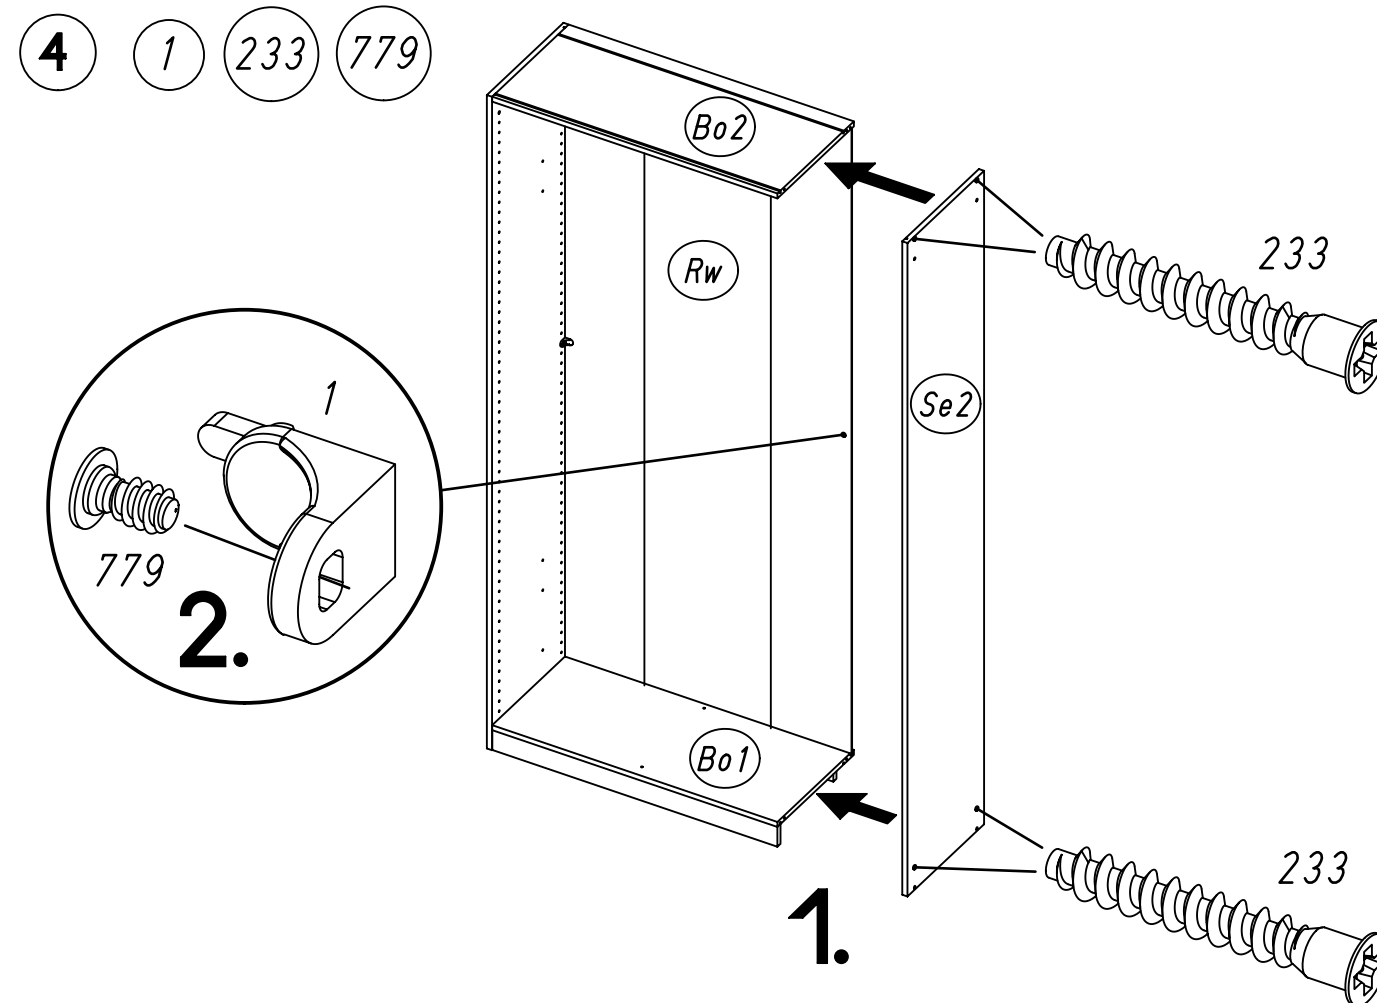

The diagram illustrates the first step of assembly. At the top, a long horizontal bar with circular holes is labeled **Bo1**. Below it, a dashed box shows two vertical components, **So1** and **So2**, with a warning triangle indicating a critical step. To the right, a component is shown with a glue applicator (labeled **11**) applying adhesive to its top surface. The main assembly area shows a perspective view of a rectangular frame being constructed from several long bars. Arrows indicate the direction of assembly. A warning triangle is placed near the bottom left of the frame. Three circular callouts provide detailed views of the joints: the top left shows a glue applicator applying adhesive to a joint; the top right shows a corner joint where **So2** meets **Bo1**; the bottom right shows a corner joint where **So1** meets **Bo1**, with a hand applying pressure. At the bottom left, two circular callouts show the ends of **So1** and **So2** components. At the bottom right, a circular timer icon shows a 20-minute drying time, with an arrow pointing to the right.
