

Mi 37W Dual-Port Car Charger

Global Version – 26554/GDS4147GL

Dual output ports

- Total output of 2 ports is 37W, while USB2 port max output is 27W, providing 27W fast charging for Mi 9;

LED Indicator

- The white circular LED indicator can help you locate the position of charging port at night.

Good compatibility

- Elastic metal contact design, suitable for different cigarette lighter or power interface of most cars.

Elastic joint

There is a elastic joint at both sides of the car charger, ensuring reliable fixation even facing jolt or sudden braking.

Multiple protection

- The car charger applied high quality main control chip, apart from charging efficiency improvement, it also provided multiple protection, including over current protection, overvoltage protection, short- circuit protection, temperature protection and electromagnetic interference protection.

Specifications:

Product name	Mi 37W Dual-Port Car Charger
Model	CC06ZM
Output port	USB-A*2
Input	12V-24V/4A
Output	USB1: 5V/2A USB2: 5V/3A, 9V/2A, 12V/2A, 15V/1.8A, 20V/1.35A
Operating temperature	0°C~30°C
Dimensions	Φ 30.8 × 74.7 mm
Operating temperature	0°C~30°C
Package including	Mi 37W Dual-Port Car Charger x 1, User Manual x 1
