This block contains seven diagrams illustrating the second step of assembly, which involves attaching the top panel to the cabinet frame using screws labeled '105'. The diagrams show different cabinet configurations: a single-door unit, a two-door unit, a two-door unit with a drawer, a three-door unit, a four-door unit, and a five-door unit. Each diagram shows the top panel being lowered into place and secured with screws. The screws are shown being inserted into pre-drilled holes in the top panel and tightened into the frame. The diagrams are arranged in two rows: the top row shows the initial placement and the bottom row shows the final secured state.
