Flexible, ultra-protective, anti-shock case

Features:

- Reinforced corners for greater protection against accidental drops
- Raised frame for greater protection of the photo compartment
- I.D.S. (Impact Dissipating System)TM: This innovative system uses shockproof material that provides the best protection for your smartphone from accidental knocks and drops
- It has passed the Military Test, an internationally recognised certification which proves resistance to knocks and drops
- This case contains recycled materials

DESCRIPTION:

TETRA FORCE STRONG GUARD is the ultra-protective flexible case with raised edge and reinforced corners, made of technologically advanced materials that can absorb and dissipate the shock caused by falls. The IDSTM (Impact Dissipating System) technology developed by Cellularline uses the innovative VersaflexTM material which helps dissipate the energy generated by impact, avoiding possible damage to the smartphone's internal and external parts.

It's made with Microban® antibacterial technology which kills up to 99.9% of bacterial growth on the surface of the case and stays constantly active because it's built into the material of the Tetra Force Strong Twist case.

Tetra Force Strong Guard has a lifetime warranty: for more information, please visit the Cellularline Guaranteed For Life section
